## **1 Corporate information**

Anant Raj Limited (formerly known as Anant Raj Industries Limited) is a public Company domiciled in India and incorporated under the provisions of the Companies Act, 1956. Its shares are listed on the Bombay Stock Exchange and National Stock Exchange. The Company is primarily engaged in development and construction of information and technology parks, hospitality projects, special economic zones, office complexes, shopping malls and residential projects in the State of Delhi, Haryana, Rajasthan and the National Capital Region.

## **2 Accounting policies**

### **a) Basis of preparation of financial statements**

The financial statements of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended) and presentation requirements of Division II of Schedule III to the Companies Act, 2013, (Ind AS compliant Schedule III), as applicable to the Company.

For all periods up to and including the year ended March 31, 2016, the Company prepared its financial statements in accordance with Indian GAAP, including accounting standards notified under the section 133 of the Companies Act 2013, read together with paragraph 7 of the Companies (Accounts) Rules, 2014. These financial statements for the year ended March 31, 2017 are the first the Company has prepared in accordance with Ind-AS.

The Company has adopted all the Ind AS standards and the adoption was carried out in accordance with Ind AS 101 First time adoption of Indian Accounting Standards. The transition was carried out from Indian Accounting Principles generally accepted in India as prescribed under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014 (IGAAP), which was the previous GAAP.

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

### **b) Use of estimates**

The preparation of the financial statements in conformity with Ind AS requires management to make estimates, judgments and assumptions. These estimates, judgments and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the period. Application of accounting policies that require critical accounting estimates involving complex and subjective judgments and the use of assumptions in these financial statements have been disclosed in note c. Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial statements.

### **c) Critical accounting estimates**

#### **Revenue recognition**

The Company uses the percentage-of-completion method in accounting for its cost plus contracts. Use of the percentage-of-completion method requires the Company to estimate the efforts or costs expended to date as a proportion of the total efforts or costs to be expended. Efforts or costs expended have been used to measure progress towards completion as there is a direct relationship between input and productivity. Provisions for estimated losses, if any, on uncompleted contracts are recorded in the period in which such losses become probable based on the expected contract estimates at the reporting date.

### **d) Property plant and equipment**

Property, plant and equipment are stated at cost, less accumulated depreciation and impairment, if any. Costs directly attributable to acquisition are capitalized until the property, plant and equipment are ready for use, as intended by management.

Capital work in progress represents expenditure incurred in respect of capital projects which are carried at cost. Cost includes land, related acquisition expenses, development and construction costs, borrowing costs and other direct expenditure.

Advances paid towards acquisition of tangible assets outstanding at each Balance Sheet date are disclosed as "Capital Advances" under Other non-current asset and cost of fixed assets not yet ready for their intended use as at the reporting date are disclosed under "Capital Work in Progress". Subsequent expenditures relating to property, plant and equipment is capitalized only when it is probable that future economic benefits associated with these will flow to the Company and the cost of the item can be measured reliably. Repairs and maintenance costs are recognized in net profit in the Statement of Profit and Loss when incurred. The cost and related accumulated depreciation are eliminated from the financial statements upon sale or retirement of the asset and the resultant gains or losses are recognized in the Statement of Profit and Loss. Assets to be disposed off are reported at the lower of the carrying value or the fair value less cost to sell.

Depreciation on fixed assets is charged in accordance with estimate of useful life of the assets on written down value method, except Buildings wherein depreciation is charged on straight line method, at rates specified in Schedule II of the Companies Act, 2013. Depreciation on assets purchased/sold during a period is proportionately charged.

Depreciation methods, useful lives and residual values are reviewed periodically, including at each financial year end.

**e) Investment properties**

The Company measures investment properties initially at cost, including transaction cost. Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and accumulated impairment loss, if any.

The Company discloses the fair value of investment properties in notes. Fair values are determined based on annual evaluation performed by the accredited external independent valuer applying evaluation model recommended by the International Valuation Standards Committee.

Investment properties are derecognized either when they have been disposed off or when they have been permanently withdrawn from use and no future economic benefit is expected from their disposal. The difference between net disposal proceeds and the carrying amount of the asset is recognised in profit or loss in the period of derecognition.

**f) Financial instruments**

**i) Initial recognition**

The Company recognizes financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument. All financial assets and liabilities are recognized at fair value on initial recognition, except for trade receivables which are initially measured at transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities, that are not at fair value through profit or loss, are added to the fair value on initial recognition. Regular way purchase and sale of financial assets are accounted for at trade date.

**ii) Subsequent measurement**

**Financial assets carried at amortised cost**

A financial asset is subsequently measured at amortised cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

**Investment in subsidiaries**

Investment in subsidiaries is carried at cost in the separate financial statement.

**Investment in associates**

An associate is an entity over which the Company has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee, but is not control or joint control over those policies.

The Company investments in its associate is accounted for using the equity method. Under the equity method, the investment in an associate is initially recognised at cost. The carrying amount of the investment is adjusted to recognise changes in the Company share of net assets of the associate since the acquisition date. Goodwill relating to the associate is included in the carrying amount of the investment and is not tested for impairment individually.

**iii) Derecognition of financial instruments**

The Company derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire or it transfers the financial asset and the transfer qualifies for derecognition under Ind AS 109. A financial liability (or a part of a financial liability) is derecognized from the Company's Balance Sheet when the obligation specified in the contract is discharged or cancelled or expires.

**g) Impairment**

**i. Financial assets**

The Company recognizes loss allowances using the expected credit loss (ECL) model for the financial assets which are not fair valued through profit or loss. Loss allowance for trade receivables with no significant financing component is measured at an amount equal to lifetime ECL. For all other financial assets, expected credit losses are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL. The amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognised is recognized as an impairment gain or loss in profit or loss.

**ii. Non-financial assets**

Property, plant and equipment are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the CGU to which the asset belongs.

If such assets are considered to be impaired, the impairment to be recognized in the Statement of Profit and Loss is measured by the amount by which the carrying value of the assets exceeds the estimated recoverable amount of the asset. An impairment loss is reversed in the statement of profit and loss if there has been a change in the estimates used to determine the recoverable amount. The carrying amount of the asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated amortization or depreciation) had no impairment loss been recognized for the asset in prior years.

**h) Provisions**

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that is reasonably estimable, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

Contingent liabilities are not recognised but are disclosed by way of notes to the financial statements, after careful evaluation by the management of the facts and legal aspects of each matter involved. Contingent assets are neither recognised nor disclosed in the financial statements.

Contingent liabilities are assessed continually to determine whether an outflow of resources embodying the economic benefit has become probable. If it becomes probable that an outflow of future economic benefits will be required for an item previously dealt with as contingent liability, a provision is recognised in the financial statements of the period in which the change in probability occurs.

**i) Inventories**

Real Estate: Lower of cost or net market value; Cost includes cost of acquisition and other related expenses incurred in bringing the inventories to their present location and condition. Net market value is the estimated selling price in the ordinary course of business.

Constructed/Under Construction Properties: Lower of cost or net realisable value. Cost includes the cost of land, internal development cost, external development charges, construction costs, overheads, borrowing costs and development/ construction material.

Development Rights: At cost of acquisition, including cost of acquiring rights of any interested party. Development rights are considered to have been acquired on execution of a Development Agreement upon vesting of irrevocable rights in the Company to construct, market, and sell the development over land and realize and retain the economic and other benefits.

**j) Unbilled receivables**

Unbilled receivables represent revenue recognized based on Percentage of Completion of Construction Method [Para (k) below], to the extent the work completed exceeds billed receivables.

**k) Revenue recognition**

**a) Existing Real Estate Projects**

Revenue from construction projects for sale is recognized on the 'Percentage of Completion of Construction Method'. Revenue from properties under construction is recognized to the extent that the percentage of actual project cost incurred thereon to total estimated project cost bears to-date sale consideration, provided actual cost incurred is 30% or more of the total estimated project cost. Project cost includes cost of land, and estimated construction and development costs. The estimates of saleable area and costs are reviewed periodically and effect of any changes in such estimates is recognized in the period such changes are determined. When the total project cost is estimated to exceed total revenues from the project, the loss is immediately recognized.

**b) New Real Estate Projects**

(i) The Institute of Chartered Accountants of India revised the 'Guidance Note on Accounting for Real Estate Transactions (for entities to whom Ind-As is applicable)', formulated on the lines of the existing Guidance Note on Accounting for Real Estate Transactions formulated by Accounting Standard Board and issued by the Council of the Institute of Chartered Accountants of India in 2012, incorporating therein the changes required keeping in view the requirement of Ind-As. The revised Guidance Note is applicable to all projects commenced on or after April 1, 2012, and also to projects which have already commenced but where revenue is being recognised for the first time on or after April 1, 2012. The revised guidance note prescribes following conditions on basis of which the Company can recognise revenue on the projects:

- All critical approvals necessary for commencement of the project have been obtained;
- When the stage of completion of the project has reached a reasonable level of development, i.e., when the expenditure incurred on construction and development is equal to or more than 25% of the total estimated project construction and development cost;
- At least 25% of the saleable project area is secured by contracts or agreements with buyers; and
- At least 10% of the contract consideration as per the agreements of sale or any other legally enforceable documents are realized in respect of each of the agreements on the reporting date and it is also reasonable to expect that the parties to such contracts will comply with the payment terms as defined in contracts.

The 'Percentage of Completion Method' is applied on a cumulative basis in each reporting period to the current estimates of project revenues and project costs. The effect of any change in the estimate is accounted for in the period when such change is evident.

When it is probable that the total project cost will exceed total revenue from the project, the loss is immediately recognized.

- ii) Revenues from construction contracts are recognised by reference to the stage of completion of each contract activity on the reporting date of the financial statements, and costs related to the respective contracts are charged to the Statement of Profit and Loss for the year.
- iii) Revenues from sale of investment properties and assets to the extent of sale consideration reduced by the respective costs thereof in each case, being value inclusive of cost of acquisition, and construction and development cost thereof.
- iv) Forfeiture due to non fulfilment of obligations by counter parties is accounted as Revenue on unconditional appropriation.
- v) Revenues from rentals are recognised on accrual basis in accordance with terms of agreements executed with respective tenants.
- vi) Service receipts and interest from customers is accounted for on accrual basis.

vii) Share of profit/loss from firm in which the Company is a partner is accounted for in the financial year ending on the date of the Balance Sheet.

**Other income**

- i) Interest income is recognized using effective interest method.
- ii) Dividend income is recognized when the right to receive the dividend is established.
- iii) Interest on arrears of allotment money is accounted in the year of receipt.

**l) Claims**

Claims lodged by and lodged against the Company are accounted in the year of payment or settlement thereof.

**m) Borrowing costs**

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets which are assets that necessarily take a substantial period of time to get ready for their intended use, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use. All other borrowing costs are recognized as part of finance cost in the income statement in the period in which they are incurred.

**n) Employee benefits**

Benefits such as salaries, wages and short term compensations etc. and the expected cost of ex-gratia is recognized in the period in which the employee renders the related service.

The Company's Gratuity and Leave encashment schemes are defined benefit plans. The Company provides for gratuity covering eligible employees on the basis of actuarial valuation as carried out by an independent actuary using the Projected Unit Credit method, which recognizes each period of service as giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation. The obligation is measured at the present value of the estimated future cash flows. The discount rates used for determining the present value of obligation under defined benefit plans is based on the market yields on Government securities as at the Balance Sheet date.

The liability is un-funded. Actuarial gains and losses arising through re-measurement of net defined benefit liability/(assets) are recognised in other comprehensive income.

Leave encashment benefits payable to employees of the Company with respect to accumulated leave outstanding at the year end are accounted for on the basis of an actuarial valuation as at the Balance Sheet date.

Contributions payable by the Company to the concerned government authorities in respect of provident fund, family pension fund and employees state insurance are defined contribution plans. The contributions are recognized as an expense in the Statement of Profit and Loss during the period in which the employee renders the related service. The Company does not have any further obligation in this respect, beyond such contribution.

Other employee benefits are accounted for on accrual basis.

**o) Foreign currency***Functional currency*

The functional currency of the company is the Indian rupee. These financial statement are presented in the Indian rupees.

*Transaction and translation*

Transaction gains or losses realized upon settlement of foreign currency transactions are included in determining net profit for the period in which the transaction is settled. Revenue, expense and cash flow items denominated in foreign currencies are translated into the relevant functional currencies using the exchange rate in effect on the date of the transaction.

**p) Income taxes**

Income tax expense comprises current and deferred income tax. Income tax expense is recognized in net profit in the statement of profit and loss except to the extent that it relates to items recognized directly in equity, in which case it is recognized in other comprehensive income. Current income tax for current and prior periods is recognized at the amount expected to be paid to or recovered from the tax authorities, using the tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date. Deferred income tax assets and liabilities are recognized for all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

Deferred income tax assets and liabilities are measured using tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date and are expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect of changes in tax rates on deferred income tax assets and liabilities is recognized as income or expense in the period that includes the enactment or the substantive enactment date. A deferred income tax asset is recognized to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilized. Deferred income taxes are not provided on the undistributed earnings of subsidiaries and associates where it is expected that the earnings of the subsidiary or associates will not be distributed in the foreseeable future. The Company off sets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously. The income tax provision for the interim period is made based on the best estimate of the annual average tax rate expected to be applicable for the full financial year. Tax benefits of deductions earned on exercise of employee share options in excess of compensation charged to income are credited to share premium.

**q) Cash flow statement**

Cash flows are reported using the indirect method, whereby net profit before tax is adjusted for the effects of transactions of a non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.

**r) Dividends**

Final dividends on shares are recorded as a liability on the date of approval by the shareholders and interim dividends are recorded as a liability on the date of declaration by the Company's Board of Directors.

**s) Earnings per equity share**

Basic earnings per equity share is computed by dividing the net profit attributable to the equity holders of the Company by the weighted average number of equity shares outstanding during the period. Diluted earnings per equity share is computed by dividing the net profit attributable to the equity holders of the Company by the weighted average number of equity shares considered for deriving basic earnings per equity share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares. The dilutive potential equity shares are adjusted for the proceeds receivable had the equity shares been actually issued at fair value (i.e. the average market value of the outstanding equity shares). Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date. Dilutive potential equity shares are determined independently for each period presented.

The number of equity shares and potentially dilutive equity shares are adjusted retrospectively for all periods presented for any share splits and bonus shares issues including for changes effected prior to the approval of the financial statements by the Board of Directors.

**t) Leases**

Leases where the lessor retains substantially all the risks and benefits of ownership of the asset are classified as operating lease. Operating lease payments are recognized as an expense in the Statement of Profit and Loss on straight line basis over the lease term. Finance lease which effectively transfer to the Company substantial risk and benefits incidental to ownership of the leased items, are capitalized and disclosed as leased assets. Lease payments are apportioned between the finance charges and reduction of lease liability so as to achieve a constant rate of interest on the remaining balance of the liability. Financial expenses are charged directly against income.

Leases under which the Company assumes substantially all the risks and rewards of ownership are classified as finance leases. When acquired, such assets are capitalized at fair value or present value of the minimum lease payments at the inception of the lease, which ever is lower. Lease payments under operating leases are recognized as an expense on a straight line basis in net profit in the Statement of Profit and Loss over the lease term.

## Notes to the financial statements as at March 31, 2017

i)	<b>BASIS OF PREPARATION OF FINANCIAL STATEMENTS</b>
----	---

The management evaluates all recently issued or revised accounting standards on an ongoing basis.

The preparation of financial statements in conformity with the GAAP requires the management to make estimates and assumptions that affect the reported balances of assets and liabilities and disclosures relating to the contingent liabilities as at the date of the financial statements and reported amounts of income and expenses during the reporting period. Although these estimates are based on the managements' best knowledge of current events and actions, actual results could differ from these estimates. Any changes in estimates are adjusted prospectively.

Tangible assets, are stated at cost less accumulated depreciation and impairment losses. Cost comprises the purchase price and any attributable cost related to the acquisition and installation of the respective asset to bring the asset to its working condition for its intended use.

Interest on borrowed money allocated to and utilized for fixed assets, pertaining to the period up to the date of capitalization is capitalized. Assets acquired on hire purchase are capitalized at the gross value and interest thereon is charged to the Statement of Profit and Loss.

Advances paid towards acquisition of tangible assets outstanding at each Balance Sheet date are disclosed as "Capital Advances" under Long Term Loans and Advances and cost of fixed assets not yet ready for their intended use as at the reporting date are disclosed under "Capital Work in Progress"

An item of tangible assets is de-recognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the income statement in the year the asset is de-recognized.

As at each Balance Sheet date, the carrying amount of assets is tested for impairment so as to determine:

- (a) the provision for impairment loss, if any required or
- (b) The reversal, if any, required of impairment loss recognized in previous periods.

Impairment loss is recognized when the carrying amount of an asset exceeds its recoverable amount.

Recoverable amount is determined:

- (a) in the case of an individual asset ,at the higher of the net selling price and the value in use.
- (b) in the case of a cash generating unit ( a group of assets that generates identified independent cash flows) at the higher of the cash generating unit's net selling price and the value in use.

Value in use is determined as the present value of estimated future cash flows from the continuing use of an asset and from its disposal at the end of its useful life.

Investment in shares and firms are stated at cost and provision is made to recognise any decline, other than temporary, in the value of such investments. Profits or losses on sale of investments are included in the Statement of Profit and Loss and calculated as the difference between the net proceeds realised and the book value.

ANANT RAJ AGENCIES PRIVATE LIMITED									
Notes to the financial statements as at March 31, 2017									
vi)	<b>DEPRECIATION</b>								
	Depreciation on fixed assets is charged in accordance with estimate of useful life of the assets, on written down value method, at rates specified in Schedule II of the Companies Act, 2013. Depreciation on assets purchased/sold during a period is proportionately charged.								
	In respect of an asset for which impairment loss is recognised, depreciation is provided on the revised carrying amount of the assets over its remaining useful life.								
vii)	<b>PROFIT/LOSS FROM PARTNERSHIP FIRM</b>								
	Share of profit/loss from partnership firm in which the Company is a partner is accounted for in the financial year ending on the date of the Balance Sheet.								
viii)	<b>TAXES ON INCOME</b>								
	The accounting treatment followed for taxes on income is to provide for Current Tax and Deferred Tax. Provision for current income tax is made for the tax liability payable on taxable income ascertained in accordance with the applicable tax rates and laws.								
	Deferred tax assets and liabilities are recognized for the future tax consequences attributable to timing differences between the financial statements, carrying amounts of existing assets and liabilities and their respective tax bases and carry forwards of operating loss. Deferred tax assets and liabilities are measured on the timing differences applying the tax rates and tax laws that have been enacted or substantively enacted by the Balance Sheet date. Changes in deferred tax assets and liabilities between one Balance Sheet date and the next, are recognized in the Profit and Loss Account in the year of change. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in the Profit and Loss Account in the year of change.								
	Deferred tax assets are recognized only to the extent there is reasonable certainty that sufficient future taxable income will be available against which these assets can be realized in future, whereas in case of existence of unabsorbed depreciation or carry forward of losses, deferred tax assets are recognized only if there is virtual certainty of realization backed by convincing evidence. Deferred tax assets are reviewed at each Balance Sheet date.								
	Advance taxes and provisions for current income taxes are presented in the Balance Sheet after off-setting advances taxes paid and income tax provisions.								
ix)	<b>EARNINGS PER SHARE</b>								
	Basic earnings per share is computed by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year.

### **Summary on Share Entitlement Reports**

The composite scheme of arrangement of the Anant Raj Group involves four companies within the Anant Raj Group, namely,

- a) **Anant Raj Agencies Private Limited (hereinafter “Demerged Company 1” or “ARAPL” or “Amalgamating Company”)** – The company is involved in the business of providing construction and engineering services.
- b) **Taurus Promoters and Developers Private Limited (hereinafter “TPDPL” or “Resulting Company 1”)** – The Company is engaged in the business of Real Estate Development.
- c) **Anant Raj Limited (hereinafter “ARL” or “Amalgamated Company” or “Demerged Company 2”)** – The company is a real estate developer and is engaged in the business of construction and development of residential projects, township projects, commercial projects, SEZ, IT Parks, Malls etc. The equity shares of the company are listed on BSE Limited (“BSE”) and National Stock Exchange of India Limited (“NSE”).
- d) **Anant Raj Global Limited (hereinafter “ARGL” or “Resulting Company 2”)** – The Company is newly incorporated with the object to carry on the business of construction and development of residential projects, SEZ, IT Parks, Malls etc. The equity shares of ARGL will be listed on BSE Limited (“BSE”) and National Stock Exchange of India Limited (“NSE”) after the proposed demerger.

The proposed composite scheme of arrangement operates in three parts:

**Part I** - The demerger of Real Estate Division of the Demerged Company 1 and the vesting thereof in the Resulting Company 1. Pursuant to the transfer of Real Estate Division of the Demerged Company 1 into Resulting Company 1, the Resulting Company-1 shall issue equity shares to the equity shareholders of Demerged Company – 1 in proportion to the shares held by them in the Demerged Company -1. The existing shareholdings in Resulting Company – 1 by Demerged Company-1 shall be extinguished pursuant to the scheme. Prior to the effectuation of this Part I 100% of the shareholdings in the Demerged Company – 1 is held by Promoter where in turn 100% of the shareholdings in Resulting Company -1 are held by the Demerged Company – 1. Thus, after effectuation of Part I of the composite scheme and issue and extinguishment of shares as specified earlier, the Resulting Company – 1 shall have the same shareholding as of Demerged Company – 1, that is to say, 100% shareholdings in Resulting Company – 1 shall be held by Promoter and Promoter Group. The share entitlement ratio for this part shall be 10 equity shares of Face Value of Rs. 10 each of Resulting Company -1 to be issued to the equity shareholders of Demerged Company – 1 for every 1 equity share of Face Value of Rs. 100 each held by them in Demerged Company -1. Thus the *ultimate* beneficial ownership in Resulting Company -1 shall remain the same.

**Part II** - The amalgamation of the Amalgamating Company with and into Amalgamated Company. After effectuation of Part I of the scheme, the Demerged Company – 1/ Amalgamating Company shall be left with no assets and liabilities other than Non-Current investments including that in

Demerged Company – 2/ Amalgamated Company. Pursuant to merger under this Part II of the scheme, the shares held by Demerged Company – 1/ Amalgamating Company in Demerged Company – 2/ Amalgamated Company shall get cancelled and equivalent number of shares shall be issued by Demerged Company – 2/ Amalgamated Company to the shareholders of Demerged Company – 1/ Amalgamating Company in the ratio of 562 equity shares of Rs. 2 each in Demerged Company – 2/ Amalgamated Company for every 1 equity share of Rs. 100 each held in Demerged Company – 1/ Amalgamating Company. Here, it is important to note that Demerged Company – 2/ Amalgamated Company is already promoted by Demerged Company – 1/ Amalgamating Company which in turn is promoted by Individual promoters, therefore, after cancellation of shares as aforementioned the Demerged Company – 2/ Amalgamated Company shall be promoted by Individual Promoters.

**Part III** - The demerger of Project Division of the Demerged Company 2 and the vesting thereof in the Resulting Company 2. The Resulting Company 2 is a wholly-owned subsidiary of Demerged Company -2. Pursuant to effectuation of Part III of the composite scheme, the Resulting Company – 2 shall issue equity shares to the equity shareholders of Demerged Company – 2 the ratio of 1 equity share of Face Value Rs. 2 each of Resulting Company – 2 for every 1 equity share of Face Value of Rs. 2 each held in Demerged Company – 2. The entire shareholdings of the Demerged Company -2 held in Resulting Company – 2 shall stand cancelled. Therefore, a replica of shareholdings of Demerged Company -2 shall be created in Resulting Company -2.

In addition to that, Anant Raj Agencies Private Limited has purchased 97,145 equity shares of Anant Raj Limited on 27<sup>th</sup> July, 2016 which will form part of the Remaining Division to be merged with Anant Raj Limited.

Under Chapter 3 of the Scheme, Anant Raj Agencies Private Limited holding shares of Anant Raj Limited will be merged with Anant Raj Limited. There remains no other assets

and liabilities into Anant Raj Agencies Private Limited at the time of its merger with Anant Raj Limited. Considering this, these shares of Anant Raj Limited held by Anant Raj Agencies Private Limited will be cancelled upon its merger and accordingly, equivalent number of shares should be issued by Anant Raj Limited to the shareholders of Anant Raj Agencies Private Limited. We believe that the above share entitlement ratio is fair considering that all the shareholders of Anant Raj Agencies Private Limited will, upon merger, become the shareholders of Anant Raj Limited.

Our report and share entitlement ratio is based on the current equity share capital structure of Anant Raj Agencies Private Limited. Any variation in the equity capital structure of Anant Raj Agencies Private Limited apart from the above mentioned, prior to the scheme of arrangement becoming effective may have an impact on the share entitlement ratio.

## **1 Corporate information**

Anant Raj Limited (formerly known as Anant Raj Industries Limited) is a public Company domiciled in India and incorporated under the provisions of the Companies Act, 1956. Its shares are listed on the Bombay Stock Exchange and National Stock Exchange. The Company is primarily engaged in development and construction of information and technology parks, hospitality projects, special economic zones, office complexes, shopping malls and residential projects in the State of Delhi, Haryana, Rajasthan and the National Capital Region.

## **2 Accounting policies**

### **a) Basis of preparation of financial statements**

The financial statements of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended) and presentation requirements of Division II of Schedule III to the Companies Act, 2013, (Ind AS compliant Schedule III), as applicable to the Company.

For all periods up to and including the year ended March 31, 2016, the Company prepared its financial statements in accordance with Indian GAAP, including accounting standards notified under the section 133 of the Companies Act 2013, read together with paragraph 7 of the Companies (Accounts) Rules, 2014. These financial statements for the year ended March 31, 2017 are the first the Company has prepared in accordance with Ind-AS.

The Company has adopted all the Ind AS standards and the adoption was carried out in accordance with Ind AS 101 First time adoption of Indian Accounting Standards. The transition was carried out from Indian Accounting Principles generally accepted in India as prescribed under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014 (IGAAP), which was the previous GAAP.

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

### **b) Use of estimates**

The preparation of the financial statements in conformity with Ind AS requires management to make estimates, judgments and assumptions. These estimates, judgments and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the period. Application of accounting policies that require critical accounting estimates involving complex and subjective judgments and the use of assumptions in these financial statements have been disclosed in note c. Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial statements.

### **c) Critical accounting estimates**

#### **Revenue recognition**

The Company uses the percentage-of-completion method in accounting for its cost plus contracts. Use of the percentage-of-completion method requires the Company to estimate the efforts or costs expended to date as a proportion of the total efforts or costs to be expended. Efforts or costs expended have been used to measure progress towards completion as there is a direct relationship between input and productivity. Provisions for estimated losses, if any, on uncompleted contracts are recorded in the period in which such losses become probable based on the expected contract estimates at the reporting date.

### **d) Property plant and equipment**

Property, plant and equipment are stated at cost, less accumulated depreciation and impairment, if any. Costs directly attributable to acquisition are capitalized until the property, plant and equipment are ready for use, as intended by management.

Capital work in progress represents expenditure incurred in respect of capital projects which are carried at cost. Cost includes land, related acquisition expenses, development and construction costs, borrowing costs and other direct expenditure.

Advances paid towards acquisition of tangible assets outstanding at each Balance Sheet date are disclosed as "Capital Advances" under Other non-current asset and cost of fixed assets not yet ready for their intended use as at the reporting date are disclosed under "Capital Work in Progress". Subsequent expenditures relating to property, plant and equipment is capitalized only when it is probable that future economic benefits associated with these will flow to the Company and the cost of the item can be measured reliably. Repairs and maintenance costs are recognized in net profit in the Statement of Profit and Loss when incurred. The cost and related accumulated depreciation are eliminated from the financial statements upon sale or retirement of the asset and the resultant gains or losses are recognized in the Statement of Profit and Loss. Assets to be disposed off are reported at the lower of the carrying value or the fair value less cost to sell.

Depreciation on fixed assets is charged in accordance with estimate of useful life of the assets on written down value method, except Buildings wherein depreciation is charged on straight line method, at rates specified in Schedule II of the Companies Act, 2013. Depreciation on assets purchased/sold during a period is proportionately charged.

Depreciation methods, useful lives and residual values are reviewed periodically, including at each financial year end.

**e) Investment properties**

The Company measures investment properties initially at cost, including transaction cost. Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and accumulated impairment loss, if any.

The Company discloses the fair value of investment properties in notes. Fair values are determined based on annual evaluation performed by the accredited external independent valuer applying evaluation model recommended by the International Valuation Standards Committee.

Investment properties are derecognized either when they have been disposed off or when they have been permanently withdrawn from use and no future economic benefit is expected from their disposal. The difference between net disposal proceeds and the carrying amount of the asset is recognised in profit or loss in the period of derecognition.

**f) Financial instruments**

**i) Initial recognition**

The Company recognizes financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument. All financial assets and liabilities are recognized at fair value on initial recognition, except for trade receivables which are initially measured at transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities, that are not at fair value through profit or loss, are added to the fair value on initial recognition. Regular way purchase and sale of financial assets are accounted for at trade date.

**ii) Subsequent measurement**

**Financial assets carried at amortised cost**

A financial asset is subsequently measured at amortised cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

**Investment in subsidiaries**

Investment in subsidiaries is carried at cost in the separate financial statement.

**Investment in associates**

An associate is an entity over which the Company has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee, but is not control or joint control over those policies.

The Company investments in its associate is accounted for using the equity method. Under the equity method, the investment in an associate is initially recognised at cost. The carrying amount of the investment is adjusted to recognise changes in the Company share of net assets of the associate since the acquisition date. Goodwill relating to the associate is included in the carrying amount of the investment and is not tested for impairment individually.

**iii) Derecognition of financial instruments**

The Company derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire or it transfers the financial asset and the transfer qualifies for derecognition under Ind AS 109. A financial liability (or a part of a financial liability) is derecognized from the Company's Balance Sheet when the obligation specified in the contract is discharged or cancelled or expires.

**g) Impairment**

**i. Financial assets**

The Company recognizes loss allowances using the expected credit loss (ECL) model for the financial assets which are not fair valued through profit or loss. Loss allowance for trade receivables with no significant financing component is measured at an amount equal to lifetime ECL. For all other financial assets, expected credit losses are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL. The amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognised is recognized as an impairment gain or loss in profit or loss.

**ii. Non-financial assets**

Property, plant and equipment are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the CGU to which the asset belongs.

If such assets are considered to be impaired, the impairment to be recognized in the Statement of Profit and Loss is measured by the amount by which the carrying value of the assets exceeds the estimated recoverable amount of the asset. An impairment loss is reversed in the statement of profit and loss if there has been a change in the estimates used to determine the recoverable amount. The carrying amount of the asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated amortization or depreciation) had no impairment loss been recognized for the asset in prior years.

**h) Provisions**

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that is reasonably estimable, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

Contingent liabilities are not recognised but are disclosed by way of notes to the financial statements, after careful evaluation by the management of the facts and legal aspects of each matter involved. Contingent assets are neither recognised nor disclosed in the financial statements.

Contingent liabilities are assessed continually to determine whether an outflow of resources embodying the economic benefit has become probable. If it becomes probable that an outflow of future economic benefits will be required for an item previously dealt with as contingent liability, a provision is recognised in the financial statements of the period in which the change in probability occurs.

**i) Inventories**

Real Estate: Lower of cost or net market value; Cost includes cost of acquisition and other related expenses incurred in bringing the inventories to their present location and condition. Net market value is the estimated selling price in the ordinary course of business.

Constructed/Under Construction Properties: Lower of cost or net realisable value. Cost includes the cost of land, internal development cost, external development charges, construction costs, overheads, borrowing costs and development/ construction material.

Development Rights: At cost of acquisition, including cost of acquiring rights of any interested party. Development rights are considered to have been acquired on execution of a Development Agreement upon vesting of irrevocable rights in the Company to construct, market, and sell the development over land and realize and retain the economic and other benefits.

**j) Unbilled receivables**

Unbilled receivables represent revenue recognized based on Percentage of Completion of Construction Method [Para (k) below], to the extent the work completed exceeds billed receivables.

**k) Revenue recognition**

**a) Existing Real Estate Projects**

Revenue from construction projects for sale is recognized on the 'Percentage of Completion of Construction Method'. Revenue from properties under construction is recognized to the extent that the percentage of actual project cost incurred thereon to total estimated project cost bears to-date sale consideration, provided actual cost incurred is 30% or more of the total estimated project cost. Project cost includes cost of land, and estimated construction and development costs. The estimates of saleable area and costs are reviewed periodically and effect of any changes in such estimates is recognized in the period such changes are determined. When the total project cost is estimated to exceed total revenues from the project, the loss is immediately recognized.

**b) New Real Estate Projects**

(i) The Institute of Chartered Accountants of India revised the 'Guidance Note on Accounting for Real Estate Transactions (for entities to whom Ind-As is applicable)', formulated on the lines of the existing Guidance Note on Accounting for Real Estate Transactions formulated by Accounting Standard Board and issued by the Council of the Institute of Chartered Accountants of India in 2012, incorporating therein the changes required keeping in view the requirement of Ind-As. The revised Guidance Note is applicable to all projects commenced on or after April 1, 2012, and also to projects which have already commenced but where revenue is being recognised for the first time on or after April 1, 2012. The revised guidance note prescribes following conditions on basis of which the Company can recognise revenue on the projects:

- All critical approvals necessary for commencement of the project have been obtained;
- When the stage of completion of the project has reached a reasonable level of development, i.e., when the expenditure incurred on construction and development is equal to or more than 25% of the total estimated project construction and development cost;
- At least 25% of the saleable project area is secured by contracts or agreements with buyers; and
- At least 10% of the contract consideration as per the agreements of sale or any other legally enforceable documents are realized in respect of each of the agreements on the reporting date and it is also reasonable to expect that the parties to such contracts will comply with the payment terms as defined in contracts.

The 'Percentage of Completion Method' is applied on a cumulative basis in each reporting period to the current estimates of project revenues and project costs. The effect of any change in the estimate is accounted for in the period when such change is evident.

When it is probable that the total project cost will exceed total revenue from the project, the loss is immediately recognized.

- ii) Revenues from construction contracts are recognised by reference to the stage of completion of each contract activity on the reporting date of the financial statements, and costs related to the respective contracts are charged to the Statement of Profit and Loss for the year.

**p) Income taxes**

Income tax expense comprises current and deferred income tax. Income tax expense is recognized in net profit in the statement of profit and loss except to the extent that it relates to items recognized directly in equity, in which case it is recognized in other comprehensive income. Current income tax for current and prior periods is recognized at the amount expected to be paid to or recovered from the tax authorities, using the tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date. Deferred income tax assets and liabilities are recognized for all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

Deferred income tax assets and liabilities are measured using tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date and are expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect of changes in tax rates on deferred income tax assets and liabilities is recognized as income or expense in the period that includes the enactment or the substantive enactment date. A deferred income tax asset is recognized to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilized. Deferred income taxes are not provided on the undistributed earnings of subsidiaries and associates where it is expected that the earnings of the subsidiary or associates will not be distributed in the foreseeable future. The Company off sets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously. Tax benefits of deductions earned on exercise of employee share options in excess of compensation charged to income are credited to share premium.

**q) Cash flow statement**

Leases under which the Company assumes substantially all the risks and rewards of ownership are classified as finance leases. When acquired, such assets are capitalized at fair value or present value of the minimum lease payments at the inception of the lease, whichever is lower. <b>ANANT RAJ AGENCIES PRIVATE LIMITED</b>									
Notes to the financial statements as at March 31, 2017									
<b>1 ACCOUNTING POLICIES</b>									
<b>i) BASIS OF PREPARATION OF FINANCIAL STATEMENTS</b>									
<p>The financial statements are prepared in accordance with the Indian Generally Accepted Accounting Principles ("GAAP") under the historical cost convention on accrual basis. These financial statements have been prepared to comply in all material aspects with the accounting standards as notified under section 133 of the Companies Act, 2013, read with Rule 7 of [Companies (Accounts) Rules, 2014], and other relevant provisions of Companies Act, 2013. Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.</p> <p>The management evaluates all recently issued or revised accounting standards on an ongoing basis.</p>									
<b>ii) USE OF ESTIMATES</b>									
<p>The preparation of financial statements in conformity with the GAAP requires the management to make estimates and assumptions that affect the reported balances of assets and liabilities and disclosures relating to the contingent liabilities as at the date of the financial statements and reported amounts of income and expenses during the reporting period. Although these estimates are based on the managements' best knowledge of current events and actions, actual results could differ from these estimates. Any changes in estimates are adjusted prospectively.</p>									
<b>iii) TANGIBLE ASSETS, INTANGIBLE ASSETS, CAPITAL WORK IN PROGRESS AND CAPITAL ADVANCES</b>									
<p>Tangible assets, are stated at cost less accumulated depreciation and impairment losses. Cost comprises the purchase price and any attributable cost related to the acquisition and installation of the respective asset to bring the asset to its working condition for its intended use.</p> <p>Interest on borrowed money allocated to and utilized for fixed assets, pertaining to the period up to the date of capitalization is capitalized. Assets acquired on hire purchase are capitalized at the gross value and interest thereon is charged to the Statement of Profit and Loss.</p> <p>Advances paid towards acquisition of tangible assets outstanding at each Balance Sheet date are disclosed as "Capital Advances" under Long Term Loans and Advances and cost of fixed assets not yet ready for their intended use as at the reporting date are disclosed under "Capital Work in Progress".</p> <p>An item of tangible assets is de-recognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the income statement in the year the asset is de-recognized.</p>									
<b>iv) IMPAIRMENT OF ASSETS</b>									
<p>As at each Balance Sheet date, the carrying amount of assets is tested for impairment so as to determine:</p> <p>(a) the provision for impairment loss, if any required or</p> <p>(b) The reversal, if any, required of impairment loss recognized in previous periods.</p> <p>Impairment loss is recognized when the carrying amount of an asset exceeds its recoverable amount. Recoverable amount is determined:</p> <p>(a) in the case of an individual asset, at the higher of the net selling price and the value in use.</p> <p>(b) in the case of a cash generating unit ( a group of assets that generates identified independent cash flows) at the higher of the cash generating unit's net selling price and the value in use.</p> <p>Value in use is determined as the present value of estimated future cash flows from the continuing use of an asset and from its disposal at the end of its useful life.</p>									
<b>v) INVESTMENTS</b>									
<p>Investment in shares and firms are stated at cost and provision is made to recognise any decline, other than temporary, in the value of such investments. Profits or losses on sale of investments are included in the Statement of Profit and Loss and calculated as the difference between the net proceeds realised and the book value.</p>

**Summary on Share Entitlement Report**

The composite scheme of arrangement of the Anant Raj Group involves four companies within the Anant Raj Group, namely,

- a) **Anant Raj Agencies Private Limited (hereinafter “Demerged Company 1” or “ARAPL” or “Amalgamating Company”)** – The company is involved in the business of providing construction and engineering services.
- b) **Taurus Promoters and Developers Private Limited (hereinafter “TPDPL” or “Resulting Company 1”)** – The Company is engaged in the business of Real Estate Development.
- c) **Anant Raj Limited (hereinafter “ARL” or “Amalgamated Company” or “Demerged Company 2”)** – The company is a real estate developer and is engaged in the business of construction and development of residential projects, township projects, commercial projects, SEZ, IT Parks, Malls etc. The equity shares of the company are listed on BSE Limited (“BSE”) and National Stock Exchange of India Limited (“NSE”).
- d) **Anant Raj Global Limited (hereinafter “ARGL” or “Resulting Company 2”)** – The Company is newly incorporated with the object to carry on the business of construction and development of residential projects, SEZ, IT Parks, Malls etc. The equity shares of ARGL will be listed on BSE Limited (“BSE”) and National Stock Exchange of India Limited (“NSE”) after the proposed demerger.

The proposed composite scheme of arrangement operates in three parts:

**Part I** - The demerger of Real Estate Division of the Demerged Company 1 and the vesting thereof in the Resulting Company 1. Pursuant to the transfer of Real Estate Division of the Demerged Company 1 into Resulting Company 1, the Resulting Company-1 shall issue equity shares to the equity shareholders of Demerged Company – 1 in proportion to the shares held by them in the Demerged Company -1. The existing shareholdings in Resulting Company – 1 by Demerged Company-1 shall be extinguished pursuant to the scheme. Prior to the effectuation of this Part I 100% of the shareholdings in the Demerged Company – 1 is held by Promoter where in turn 100% of the shareholdings in Resulting Company -1 are held by the Demerged Company – 1. Thus, after effectuation of Part I of the composite scheme and issue and extinguishment of shares as specified earlier, the Resulting Company – 1 shall have the same shareholding as of Demerged Company – 1, that is to say, 100% shareholdings in Resulting Company – 1 shall be held by Promoter and Promoter Group. The share entitlement ratio for this part shall be 10 equity shares of Face Value of Rs. 10 each of Resulting Company -1 to be issued to the equity shareholders of Demerged Company – 1 for every 1 equity share of Face Value of Rs. 100 each held by them in Demerged Company -1. Thus the *ultimate* beneficial ownership in Resulting Company -1 shall remain the same.

**Part II** - The amalgamation of the Amalgamating Company with and into Amalgamated Company. After effectuation of Part I of the scheme, the Demerged Company – 1/ Amalgamating Company shall be left with no assets and liabilities other than Non-Current investments including that in Demerged Company – 2/ Amalgamated Company. Pursuant to merger under this Part II of the scheme, the shares held by Demerged Company – 1/ Amalgamating Company in Demerged Company – 2/ Amalgamated Company shall get cancelled and equivalent number of shares shall be issued by Demerged Company – 2/ Amalgamated Company to the shareholders of Demerged Company – 1/ Amalgamating Company in the ratio of 562 equity shares of Rs. 2 each in Demerged Company – 2/ Amalgamated Company for every 1 equity share of Rs. 100 each held in Demerged Company – 1/ Amalgamating Company. Here, it is important to note that Demerged Company – 2/ Amalgamated Company is already promoted by Demerged Company – 1/ Amalgamating Company which in turn is promoted by Individual promoters, therefore, after cancellation of shares as aforementioned the Demerged Company – 2/ Amalgamated Company shall be promoted by Individual Promoters.

**Part III** - The demerger of Project Division of the Demerged Company 2 and the vesting thereof in the Resulting Company 2. The Resulting Company 2 is a wholly-owned subsidiary of Demerged Company -2. Pursuant to effectuation of Part III of the composite scheme, the Resulting Company – 2 shall issue equity shares to the equity shareholders of Demerged Company – 2 the ratio of 1 equity share of Face Value Rs. 2 each of Resulting Company – 2 for every 1 equity share of Face Value of Rs. 2 each held in Demerged Company – 2. The entire shareholdings of the Demerged Company -2 held in Resulting Company – 2 shall stand cancelled. Therefore, a replica of shareholdings of Demerged Company -2 shall be created in Resulting Company -2.
